LANGUAGES

Ukrainian
Native

English
A2–B1 · Actively improving

SOFT SKILLS

· Cross-functional collaboration & async teamwork

· Continuous self-directed learning

· Staying current with industry trends & emerging tools

· Attention to detail & clean code discipline

· Independent delivery

EDUCATION

September 2026 – Present
Bachelor in Software Engineering (121)
West Ukrainian National University (WUNU) — Ternopil

2022 – 2026
Diploma with Honors in Software Engineering
Sambir Vocational College of Economics and Information Technology

· Strong foundation in CS, OOP (C++), and software architecture
· Final project: "Student Platform" — full-stack web application

August 2023 – August 2026
Full-Stack Web Development
/creator IT Academy
· Intensive training in frontend and backend development (React, Next.js, Node.js)
·Gained practical experience in building and deploying responsive web applications

PROFESSIONAL FOCUS

Full-Stack Developer (React/Next.js, Node.js) with hands-on experience building full-cycle web applications, including e-commerce and educational platforms. Seeking a Full-Stack position to leverage my skills in REST API integration and UI development while growing within a professional engineering team.

TECHNICAL SKILLS

FRONTEND	React · Next.js · TypeScript · JavaScript · Tailwind CSS
BACKEND	Node.js · Express.js · MongoDB · PostgreSQL · MySQL · Supabase · Neon · Prisma ORM · Mongoose · Drizzle ORM
AI ENG.	Cline · GitHub Copilot · Antigravity · Cursor
TOOLS	Git · GitHub Desktop · Docker · Vercel · Render · Postman · Figma (Design handoff, MCP integrations)
LIBS	Redux Toolkit · React Router · Axios · Zod · React Hook Form · Stripe.js · JWT · bcrypt

PROFESSIONAL EXPERIENCE

Slick — Full-Stack E-Commerce Platform

React · Next.js · Node.js · MongoDB · Tailwind CSS

· Built a complete e-commerce solution for a footwear brand with product catalog, cart, and checkout flow.

· Implemented REST API with Node.js/Express, MongoDB for data storage, and JWT authentication.

· Designed responsive UI with Tailwind CSS and integrated Stripe payment gateway.

BentoBuilder — Developer Portfolio Constructor

Next.js · TypeScript · Prisma ORM · PostgreSQL · Tailwind CSS

· Built a highly customizable bento-grid portfolio platform allowing developers to create interactive, widget-based profiles featuring a personalized AI assistant.

· Optimized application performance and rendering architecture by strategically implementing Next.js Server and Client Components while resolving hydration mismatches.

· Engineered dynamic AI prompts to ensure strictly scoped, hallucination-free assistant responses based on the user's specific tech stack and bio.

SiteMonitor — Uptime Monitoring Web App

React · TypeScript · Tailwind CSS · Node.js · MongoDB

· Developed a real-time website availability monitoring application with automatic URL ping checks and interactive uptime statistics.

· Implemented full CRUD functionality for managing tracked resources alongside visual status dashboards and performance charts.

· Integrated a Telegram bot notification system for instant alerts regarding server downtime and service recovery.

Manifik — Restaurant Landing Page

React · Node.js · Express.js · MongoDB Atlas · Tailwind CSS

· Developed a responsive restaurant landing page to enhance online presence and user engagement.

· Engineered the backend infrastructure deployed on Render, integrating a MongoDB Atlas database with configured replica sets for reliable data storage.

· Managed end-to-end deployment pipelines, including secure CORS configuration, environment variables setup, and frontend hosting on Vercel.
